Goal	Explanation
Reusability	Frameworks and adaptations readily reusable
Modularity	Decoupled and easy to reassemble
Testability	Components easily isolated for testing
Adaptability	Should be adaptable to new contexts and bridge to inherited
Portability	Should be portable to new architectures and platforms
Usability	Should be easily understood and used by customers
Configurability	Facilities in the architecture should be scalable and configurable
Performance	Architecture should perform well in resource constrained contexts. Should be very compact.
